1. OVERVIEW

This document describes how to install and configure the JCS Conflation Suite. JCS is an extension to JUMP – the Unified Mapping Platform. It contains a set of plug-ins which add conflation functionality to the JUMP environment.

Installation information for JUMP can be found in the JUMP Installation Guide.

2. SYSTEM REQUIREMENTS

See the JUMP Installation Guide.

3. INSTALLATION

- Install JUMP as described in the JUMP Installation Guide.
- Unzip the JCS archive into the same directory

4. CONFIGURATION

No special configuration is needed for JCS.

For general JUMP configuration options, see the JUMP Installation Guide.

5. RUNNING THE APPLICATION

To run JCS, invoke JUMPWorkbench.bat. This will automatically load the JCS extension into JUMP.
